

1. Draw the diagram above **TWICE**.
2. Draw arrows to show the direction of air movement in a sea breeze. (**Blue for cool air**, **Red for warm air**)
3. Add a Sun or moon to the diagram to show if it is day or night. (Sea Breeze or Land Breeze)
4. Label **Low (L)** or **High (H)** pressure areas.
5. Label the land hot or cool.
