

Weather Story - *Creative Project*

Take some time to come up with three words that come to mind when you think about weather.

Using only the 3 words you chose about weather, you are going to write a short story. Your story must be at least 2 paragraphs (8-10 sentences) in length. This story may be made up, about characters you created, or you may write about a real event that happened. However, **your story must include all 3 weather words that you chose**. You must also illustrate your story with a picture of **at least** 1 scene. You may create more than one illustration, if you wish; however, you are only required to have one illustration. The scene that you choose to illustrate must depict at least one of your weather words, but you may include more if you wish.
