

WEATHER

CLIMATE

Cut out each of the following scenarios and sort them into the T-chart you created in your ISN based on if they are an example of weather or climate. Once your teacher checks your work, glue them into your ISN under where they belong in the T-chart.

Tomorrow the forecast is predicting snow for Dallas!	In Hawaii they usually have sunny days with cool nights
In Seattle, Washington they expect rain all year long.	I'd hate to live in Michigan due to their harsh winters.
It has rained in Dallas for the past 3 days!	The weather man said we could expect rain on Friday.
In Denver, it is usually snowing!	Houston, TX is known for hot and humid weather.
Most of Texas usually has very mild winters.	This weekend should be great! 75° and sunny
Yesterday in Atlanta they had storms all day long.	Last Sunday there was a tornado in Oklahoma.
Next Tuesday we are expecting snow in Chicago.	The sunny weather brings a lot of people to the beach.
